

The Win2k Project Team is currently looking for qualified individuals to assist us in testing applications for Windows 2000. These individuals called Subject Matter Experts, or SMEs will be needed to ensure certain applications are running Properly under Win2k. Below is the application group you are listed under. If you are familiar with these applications and would be willing to help out, or if you would like to designate some one in your group, please reply by calling the SME hotline at x30333.

Thanks you,
Erica Fields

Application: Altrade Power
