

Hi Susan !

?

This is Bobby Gerry writing to say hello. It was fun meeting you at Downing Street this past weekend.

I wanted to drop you a line before I head off for the holidays, and I hope you have a great Christmas!

I am going out to San Francisco on Wednesday to spend Christmas at Mom's place and I'm going to be out there through New Years as well.

It would be fun to do something after the busy holiday season ends. I'm glad you got to meet Julie Maxey the other night. She and her husband Steven are really great. ..I'm starting to see more and more that energy is a SMALL world here in Houston!

Anyway, I hope things are good with you and have a great holiday!

Bobby
