

Here is the final draft of my rebuttal testimony.? I will be spending the rest of the morning cleaning up the few remaining holes for numbers, etc.? Please note I have added extensive rebuttal to the SCGC / TURN study showing that demand charges could increase EG fixed costs by up to 20%.? The study, which Edison received in a data response late Wednesday, is very weak.? Please call with any final comments by 1 p.m. today.

?

Also -- this draft has revised language indicating that this testimony is not meant to express the CCC's or Dynegy's opposition to any element of the Interim Settlement.? I would appreciate any feedback on whether this language is consistent with how other signatories to the Interim Settlement are dealing with this issue.

Subject: Re: Tom Beach's Prepared Rebuttal Testimony

Attached please find Word and Wordperfect versions of Tom Beach's draft rebuttal testimony in the Gas OIR proceeding, on behalf of the Indicated Electric Generators.

I look forward to comments from any of the supporters of the Comprehensive Settlement.
