

I attend a regular meeting with AA and Rick Causey discussing EES internal controls. They have asked for a detailed presentation on :

- EAM business
- Tariff curve summary and positions against those curves
- Credit issues in general.

I will try and get more details for this but we should get together soon and get it organized. EES may attend but not present. I think we should give them an overview of the business and what needs to be accomplished in each of the above areas. Probably a one hour mtg but maybe two. Lets try to meet next week.

Karen- please set up.

Tx Rick
