

See the attached proposed letter for ParPak. I need the rest of the calculations, the Value of the Posted Credit Support as of the Valuation Date and the difference. Do you normally have the trader review this type of letter prior to sending? I think we should in this instance. I expect ParPak to reply with a request for a Return Amount. As this occurs, please let me draft that letter as well. Thank you.

I will finalize the letter for you when I get the calculations. Any questions, please call. Mary
