

Osman,

Kevin Kindall is working on the methods for operational risk.

Please, schedule a meeting with him and Tanya (myself included).

Subject: VAR for business risk

Vince,

I am sorry that I had to miss the staff meeting today.

I am working on the PremiumPower issues--trying to set up a meeting with Global Markets. I read their Business Plan and will talk to Vasant to update him on the types of products they are developing.

Another set of issues is related to including business risk (non-market risk) into the VAR calculations. Several groups here need such methodologies. Can we set up a brainstorming session when your schedule permits?

Happy New Year,
Osman
