

Gerald,

Please review the attached completed confirmation for EEX E&P and forward to Ellen Wallumrod to send to the customer if you approve. We need to get this to the customer today if at all possible.

Per Jill Zivley, there is not an MDQ, but she will work with the customer on a monthly basis for volumes above 1700. Please let me know if we need to adjust the confirm based on that information.

Thanks,
Judy Thorne

Subject: EEX Confirm

Judy, Attached is the draft confirm for EEX. Can you fill in all the notice information for EEX. Also as we discussed, we also need to insert the well/field/lease data. Note that there is no MDQ. From the printout, it looked as though all volumes in excess of 1700 MMBtu per day were priced as gas daily. If there is an MDQ, we will need to insert it. Thanks.
