

Notes to the Report

1. Exposures are all provided from the perspective of Enron Canada. Therefore a positive number means Enron Canada is "In the Money" (ie. dollars should be paid to us) and a negative means that Enron Canada is "Out of the Money".

2. All dollars are US.

3. This report uses the December 11, 2001 curve data for calculating mark to market positions. The receivables and payables include outstanding payments or receipts from November physical business and December financial business, as well as projected December physicals for the period of flow during the month.
