

Ina,

Can you get a conference room on 32 for this meeting on Wednesday and let Becky Cantrell know.

thank you

Works for us. I've scheduled 47C1 at 10:30. If you'd rather get a conference room on 32, just let me know.

Thanks.

Becky,

How about Wednesday morning at 10:30 am?

Phillip

Phillip -- Would you have some time Wednesday afternoon to meet with Leslie Lawner and me (and Donna Fulton in the D.C. office by phone) to discuss what we could be doing for you at FERC in the next few months?

Communication Attorney-Client Communication and Attorney Work Product Privileges Asserted

Following up on Alan's comment to Phillip --

I've asked the RTO heads to think about 6 month and 18 month "plans". What about something like this for gas?

Jim

Per last week's call, I am circulating updated FERC staff talking points to the entire Western Wholesale group. This version of the talking points incorporates comments from Steffes, Walton, and Perrino.

Phillip Allen: people on the call were wondering if there are any informal messages the West gas desk would like to relay to FERC staff. Notes, however, that ex parte contacts such as these generally must avoid issues that are being currently litigated by the FERC.
