Subject: Master Contract Available in Word Format

The latest version of the EEI-NEM Master Contract now can be downloaded from EEI's website at <http://www.eei.org/issues/contract/>. We only ask that a short registration form be filled out first so that we can better serve the community interested in using the contract. We are making the contract freely available, multiple copies may be made, our only restriction is that the contract not be resold. We also request that attribution to EEI and NEM be given in all copies of the contract.

Our intention is to use the EEI website and listserver as tools to help promote dissemination and use of the contract. For instance, we could make a listing of companies using the contract on the website. Also, we are considering posting on a periodic basis responses to requests for clarification or interpretation of the contract terms that would be of interest to the user community. Please let me know if there are other enhancements that you would find helpful

Regards,

Andrew S. Katz, Director Industry Legal Affairs
