

It's still a bit of a mystery. Our tech guy suggests that Doug try to send a test email to tradersnewsindexes@ipgdirect.com to see if an error message comes back to him. I know he is probably not there now, but I hope things work tonight when he sends.

Well, if the e-mail address "tradersnewsindexes@ipgdirect.com" is correct, then no.

have the guy try sending an e-mail to that address now.

Does he get anything back, like an error message?

Can ya'll tell anything from the below? He thinks we are not getting our trades because of a problem on our end.

Bobette

I think y'all might want to check your e-mail server. It looks to me that my night guys have been e-mailing our contribution to your index.

Give me a call or e-mail me with any questions.

Don Baughman
Enron Power Marketing, Inc.

PS What happened to supper last week?
